Feb. 3, 2011 - Leonard Animal Clinic, a full-service veterinary facility serving both small and large animals, was opened in 1990 by Bobby Cox DVM. Boarding and grooming, as well as medical services, are available. They carry a complete line of premium pet diets and flea and heartworm preventives. Please stop by anytime for a tour of the facility. Check out their new clinic website, www.leonardanimalclinic.com, where you can order your pet's meds online and learn all about the clinic.
